*Human-Centric
Design +
Technology
Interdisciplinary
Immersion*

SINGAPORE UNIVERSITY OF
TECHNOLOGY AND DESIGN

A BETTER WORLD BY DESIGN.

Takes inspiration from **Leonardo da Vinci**, a man who was

- ahead of his time, with highly imaginative and innovative ideas arising from the deep blending of science and arts; and
- an artist, architect, engineer and scientist – combined

daVinci@SUTD

Unique integration of **HASS, Design and STEM**

Inspiring youths in **human-centred designs and innovations** that are grounded in **Science, Technology, Engineering and Mathematics**, fused with the understanding of **Humanities, Arts and Social Sciences** to serve greater societal needs.

daVinci@SUTD STEAMxD Immersion Programme

Day 3 (PM) – Artificial Intelligence Session

Ibrahim Thahir¹ and Melvin Lee¹

¹ Engineering Product Development (EPD)

Workshop Scenario

Each student team sets up a startup Co. specializing in AI-equipped robotics for rescue operations. **(Tech. Co.)**

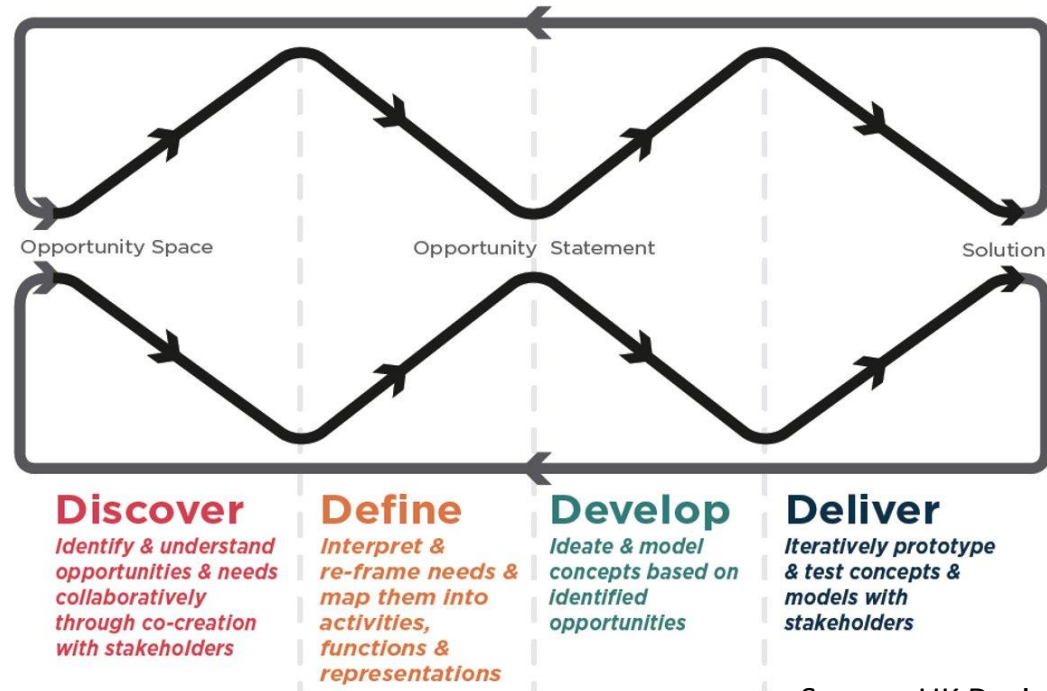

Company works worldwide and needs to understand its clients' needs.
(User Needs)

In a startup Co. founders carry out all of the work, hence, it is important to master different skills in the fields of Humanities, Design and STEM.
(Transdisciplinary)
